

Improve on-time shipment rates. Enhance communication with suppliers. Protect your profits.

Your suppliers are critical to the success of your business but that doesn't mean you shouldn't hold them accountable. Inefficient receiving, inventory stockouts, lost sales, process delays, and sky high shipping costs can all happen when they fail to live up to their end of the bargain. But did you know there's a dynamic tool that can help you prevent all that? Syncrofy by CoEnterprise provides a platform to ensure suppliers send you accurate and complete ASNs by empowering them with human-readable versions of ASNs and errors—including reporting and dashboards to identify trends and potential problems.

What Can Effective ASN Compliance Do For YOU?

- ✓ Improve your receiving operations by 65%
- ✓ Save you money by helping you avoid missed sales opportunities by up to 35%
- ✓ Help you forecast staffing and warehouse space requirements based on shipment arrivals
- ✓ Speed up time-to-receive per shipment by 70%
- ✓ Shorten time between shipment arrival and goods being on shelves for purchase

HERE'S HOW SYNCROFY HELPS GET YOU THERE:

Self-Service to Empower Your Suppliers

Syncrofy puts the power in your supplier's hands by notifying them of ASN errors and giving them the opportunity to correct those errors before shipments arrive. It also delivers self-service analytics so they can report on ASN errors and resolve problems proactively at their root.

Power Your ASN Compliance Program with Syncrofy

With Syncrofy you essentially get an ASN compliance program in-a-box. You'll be empowered to receive ASNs from suppliers, validate the ASNs against EDI standards and business rules, automatically notify partners of errors for their ASNs, and calculate charges and bill your suppliers.

ASN Flagging to Stay Ahead of the Game

Need your ASNs a certain amount of time before the shipment? Syncrofy highlights late ASNs relative to other dates associated with that specific order or shipment—so there's no gray area. Whether it comes from the PO or your WMS, Syncrofy can cross-reference it and flag the ASN as "late."

Issue Consolidation For Easy Fine Distribution

With Syncrofy, you don't have to spend valuable time building error lists and manually charging fines to your suppliers. Syncrofy calculates the fines and fees and sends them to your billing system to allow you to charge your suppliers.

Syncrofy delivers ASN error dashboards right out of the box.

How Syncrofy Can Help You Take Action!

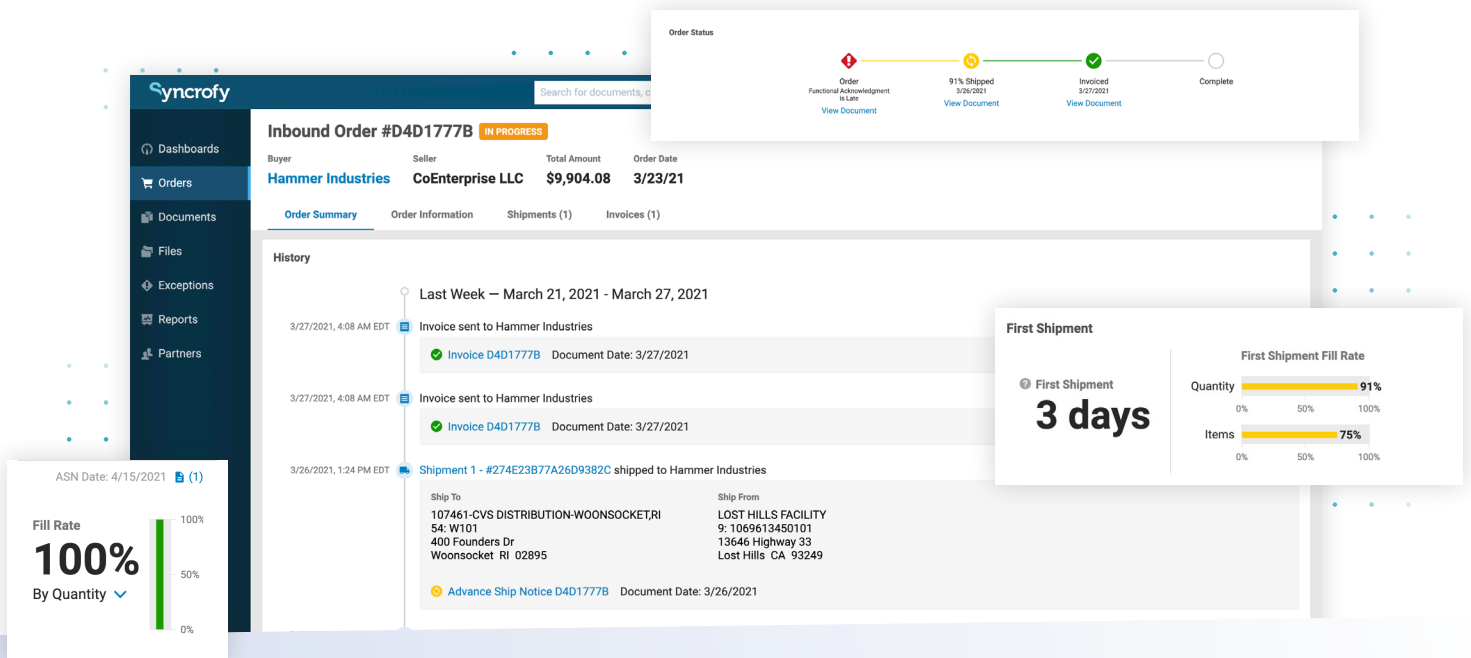

- ✔ **Keep Tabs on Suppliers.** Syncrofy enables you to charge suppliers for ASNs which are late, have invalid EDI, or are missing required data.
- ✔ **Develop a Single Source of Truth.** Boost collaboration with suppliers by using a uniform source of data to improve the quality and accuracy of the data in the suppliers' ASNs.
- ✔ **Upgrade Your Receiving.** Improve your receiving operations by having reliable, accurate data at your fingertips on what suppliers are shipping and when.

Learn more about Syncrofy...

Designed with non-technical users in mind, Syncrofy provides full supply chain visibility and actionable insights from day one—no need to configure, map, or develop a specialized data warehouse. It calculates fill rate and lead time for both orders and shipments and reconciles invoices against POs, shipment documentation, and receipts to identify quantity and price discrepancies.
