

A Proven Methodology For Sustained Data Success

Tableau Blueprint-Aligned Solutions & Services From CoEnterprise

When it comes to data analytics, the path to quickly realizing maximum ROI is paved with your methodology. That's why all of our Tableau solutions and services align directly with Tableau Blueprint, a unique approach for building the capabilities you need to create a successful, data-driven organization. Blueprint applies best practices from all of Tableau's customers to help guide you on your analytics journey.

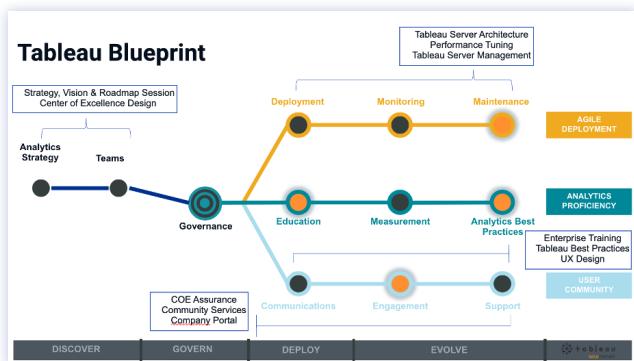

The Expertise & Skills to Deliver Maximum ROI

Many solution providers can show you how to optimize your data, but often cannot help when it comes to execution. As a Tableau Premier Reseller and Services Partner with over 10 years of experience implementing Blueprint methodologies, our delivery framework aligns with Tableau's step-by-step guidelines and will help you develop a data-driven culture of self-sufficiency and help maximize your return on investment.

We've improved performance for over 100 customers since Blueprint's inception in 2013.

Agile Deployment

Do you have the performance necessary to keep your users coming back? We've heard nightmares from customers who have spent thousands of dollars on a solution only to experience 30 second load times. With CoEnterprise, we have the optimized deployment setup so you and your team can hit the ground running without any delays in performance. We also have 24/7 monitoring in place to ensure there are no disruptions when it comes to your user community as our trusted experts will be with you every step of the way to ensure your growing business needs are always met.

We've delivered over 170 Tableau Standard courses in person and virtually, and counting...

Analytics Proficiency

Our award-winning training services are led by certified Tableau trainers and cover all levels of knowledge to ensure company-wide adoption so you get the most out of your implementation. Regardless of whether you need team training or individualized lessons, are a beginner or an advanced power user, we have the skill, best practice knowledge, and UX design expertise to ensure you remain on the fast track to proficiency.

As a part of enablement, we also help customers build dashboards to track their adoption, ensuring that your efforts and investments drive results. We work with customers hand in hand to improve the performance and utility of their current content.

User Community

CoEnterprise Assurance provides proactive support for your users, building training and enablement materials for recurring customer challenges.

We stimulate customer engagement by providing custom training courses specific to your needs designed to increase engagement. We'll also ensure you stay engaged by providing you with user groups, lunch & learns, and 1:1 mentoring.
