

Drastically cut Alteryx spend by 40-60%, increase efficiency, and reduce headaches

Migrate to Tableau Prep Builder with the help of an experienced team and automated tools while leveraging existing technology

Stop Throwing Away Money – Take Action NOW

When it comes to your Alteryx licenses, you don't know what you don't know. There's a good chance you may be wasting money on unused Alteryx licenses or paying the premium Alteryx price for transformations that can be easily accomplished in Prep Builder. But how do you know?

That's where we come in. We'll help you determine the areas you can reduce, what that savings is worth, and shine a light on your organizational path to getting there. We work with your internal teams and current technology to minimize your Alteryx licensing footprint by shifting select workflows to Tableau Prep Builder—with MINIMAL disruption to your business.

Why CoEnterprise?

With over 250 analytics projects completed annually and thousands of custom visualizations implemented every year, we know data. We feature ongoing strategic enterprise analytics projects with companies ranging from Fortune 500 to SMB and work to help our customers achieve reliable, data-backed decision-making to maximize ROI.

Our technology consolidation plan provides easy, step-by-step guidance on the tools, planning, and resources you'll need to assess to confidently move your data transformation off Alteryx and into the heart of Tableau—a best-fit, easy to learn, user-friendly tool that your organization will love.

Here's how we'll help you determine if it makes sense for your organization:

- ✓ **Assess existing workflows:** We'll highlight things you're doing in Alteryx that you can do in Tableau Prep
- ✓ **Identify licensing savings:** Our team will determine your cost savings in licenses by migrating and build a plan to maximize that savings
- ✓ **Organizational readiness:** We'll help you determine how prepared your business is to make the switch and any foreseeable challenges
- ✓ **Roadmap migration effort:** Our experts will break down what it will take to move your users and existing workflows to Tableau Prep

Here's how we helped one client—a multinational retail corporation:

300+

Tableau Prep Builder Users Enabled

4000+

Workflows Migrated

\$1.5m

In Annual Savings

We'll be the sight line for recovering all your costs in YEAR 1

Our white-glove service and processes were developed to minimize the impact to your day-to-day tasks and promotes better integration with the Tableau ecosystem, specifically data governance.

We Take the Fear Out Of Platform Consolidation

Our purpose is not to help you eliminate Alteryx from your organization completely—but to provide insight on how to best reduce it. We've heard horror stories of businesses being led astray by migrating the wrong workflows or completely ignoring the server aspect (it's not just about licenses, it's about reducing the server footprint as well). Let us be your entry point and appropriate scope for harvesting the value of your Alteryx licenses.

The longer you wait and put off your platform consolidation, the harder it becomes.

Jumpstart your journey to Tableau Prep with Data Management by engaging CoEnterprise and receiving expert guidance to expedite your migration and pull forward ROI.
