

TABLEAU SOLUTIONS AND SERVICES

Transform your business into a data-driven organization.

Tableau transforms the way people use data to solve problems. As a Gold Partner, we support Tableau users across the globe with superior product know-how, informative training, and optimized data environments that drive real business value.

Why CoEnterprise?

All of our Tableau certified practice leaders are also business experts with decades of practical hands-on experience at industry-leading consulting firms. Our unique blend of analytics strength, business intuition, and problem-solving enable us to cut through the noise and focus on delivering Tableau solutions custom tailored to your business needs.

- 250+ customers helped and counting...
- Thousands of custom visualizations implemented
- Tableau Services & Training Partner of the Year (multi-year recipient)
- Tableau Rookie Partner of the Year

Here's how we can help you...

A Proven Methodology & Strategy for Maximum ROI

Many solution providers can show you how to optimize your data, but often cannot help when it comes to delivering business value. Our delivery framework aligns with Tableau Blueprint's step-by-step guidelines and will help you develop a data-driven culture of self-sufficiency so you can maximize user adoption and ensure long-term success.

Salesforce Integration for Actionable Data Insights

Our Tableau experts go above and beyond simply embedding Tableau content into your Salesforce environment—we fully integrate the power of Salesforce directly within your Tableau dashboard. This allows you to view, interact, update, and act upon your data to answer business questions, predict time to close for key opportunities, and make better-informed decisions, all powered by Tableau CRM (formerly Einstein AI).

Dedicated Tableau Server Hosting

Our fully customizable Tableau hosting service provides you with real-time monitoring, enhanced performance, boosted security, and better control and flexibility—empowering you to get the most out of your Tableau solution without the overhead or headache of maintaining costly equipment.

We Know Analytics...

consultants

Guided Dashboarding, Report Migration, and Server Architecture

We can guide your teams through best practices and develop custom visualizations in dashboards to drive your success—or help you migrate from a legacy BI tool to Tableau. We can also deploy, monitor, and maintain your Tableau server environment and work with you to identify strengths, areas for improvement, and recommendations on changes moving forward.

Tableau Assurance & Managed Services

Our industry-leading Tableau Assurance plans are designed to be flexible, cost effective, and scalable to support your business needs—while ensuring your environment is stable and available. Our analytics managed services were created to empower you to lower operating costs, reduce time to implementation, and allow for scaling while enhancing security. Managed services include:

- Collection & Preparation
- Integration
- Modeling & Analysis
- Management
- Visualization & Insights
- Embedded Analytics

Adoption & Comprehensive User Training to Drive Self-Sufficiency

Our onsite training is led by certified Tableau experts, educating your team on best practices taught by the industry's finest. From Tableau fundamentals to advanced topics, each session is customized and tailored to your data, preparing your team to maximize adoption and conquer any data challenge.

Don't take our word for it,
see the results for yourself...

TIFFANY & CO.
