

Professional Expertise, On-Demand

Experience the Difference with CoEnterprise

Are you ready to break free from the constraints of outdated processes and unlock your full business to business potential? Then it's time to call in the experts! We can help you get the most out of your B2B environment so you can achieve real value today and sustain it for the future.

A Trusted Guide for Your Digital Transformation Journey

Our professional services experts are uniquely specialized in all things B2B and are fully committed to your success. When it comes to B2B, supply chain, and data analytics—nobody has more knowledge or experience. We'll help you strategize, build, implement, and manage your end-to-end business integration environment so you can make better-informed decisions and maximize your return on investment.

Here's how we can help you...

**Call on the experts
that IBM calls!**

IBM B2B Sterling Integration

We get it. As a business, you deal with challenging B2B problems on a daily basis. **We can help you** tackle them head-on without engaging internal resources so you can stay focused on critical initiatives and get the most out of your processes. From major upgrades and migrations to high volume onboarding, to accommodating the complex needs of large mergers and acquisitions—we'll ensure you never miss a beat. Our team will be an extension of your team, providing the expert guidance, proven best practices, around-the-clock monitoring, and infrastructure support to help you effectively manage your entire production process so you can concentrate on what matters most—running your business.

30% reduction in trading partner onboarding time

65% improvement in customer satisfaction

50% reduction in turnaround time for new mapping requests

78% increase in partner collaboration

EDI Managed Services with Syncrofy Integration Cloud

Not all managed services providers are created equal. We've been providing EDI managed services for our clients over the last decade and now our **Syncrofy Integration Cloud (SIC)** solution can help companies like yours solve many of their common, daily integration challenges. With its rapid onboarding capabilities, out of the box features, and high performance and scalability, SIC will empower you with the control, visibility, and exception management you need to streamline all your processes.

At the core of SIC is **Syncrofy**, our flagship EDI and supply chain visibility software. Syncrofy provides real-time visibility into your orders and shipments to help you break down barriers across your supply chain—enabling you to solve costly problems before they occur and realize revenue faster by eliminating costly fines and chargebacks, late shipments, and late payments.

Data Analytics, Guided Dashboarding, and Visualization

Our team of experts support **data analytics** professionals across the globe with deep knowledge, informative training, and optimized data environments that drive real business value. Our unique blend of analytics strength, business intuition, and problem-solving enable us to cut through the noise and focus on delivering solutions custom tailored to your business needs. Whether you need server maintenance and management, custom dashboarding, migrations, or managed services, we can help empower your business so you can achieve both your long and short-term goals.

Expertise as a Service

Applying deep industry experience, our expertise-as-a-service (EaaS) can help you plan for future initiatives while still giving you the critical support you need when you're running lean. Concerned about cost? Have no fear. Our flexible structure allows you to purchase blocks of consulting hours at a time so you can use them as needed.
