

# Best-In-Class Supply Chain Visibility

IBM Sterling Supply Chain Business Network (SCBN) & Syncrofy

Syncrofy, our powerful supply chain visibility and intelligence platform, allows you to maximize your investment in the IBM Sterling Supply Chain Business Network (SCBN) and gain real-time visibility into your entire B2B supply chain, including linking all order lifecycle transactions. With a pre-built connector to IBM Sterling SCBN, you'll be up and running in days without any integration effort!

With Syncrofy by your side, you'll get the best of its robust business visibility features including:

- ✓ Self-service EDI for customer service, accounting, supply chain, procurement, and IT
- ✓ Proactive notifications and alerts on supply chain exceptions
- ✓ Full order lifecycle visibility including 4-way matching
- ✓ Supplier and customer scorecarding including fill rate, lead time, OTIF, and more
- ✓ Powerful real-time, configurable dashboards
- ✓ Partner access for collaboration

## A More Efficient Way to Work

Syncrofy combined with IBM Sterling SCBN, your trusted, scalable B2B network, empowers you to see the blind spots in your supply chain and streamline communication between your internal teams and trading partners.

## Built for Supply Chain Professionals

Syncrofy enables companies to consolidate information that's scattered throughout multiple systems and make it accessible for all users in all departments, without having to leverage IT staff or resources.

Ready to start your path towards complete supply chain visibility?

Contact us today to learn how we can incorporate it into your IBM SCBN!
