

Syncrofy File Transfer

Don't just manage your file transfers—master them

Syncrofy File Transfer (FT) is a clarity-focused file transfer platform that provides real-time visibility, proactive monitoring, and AI-driven insights—allowing you to focus on what matters most—running your business.

What sets Syncrofy File Transfer apart from the rest

Proactive issue resolution

Syncrofy FT's continuous monitoring helps you stop issues before they become critical. It identifies potential problems and resolves them proactively to help you avoid costly downtime, fines, and unhappy customers.

Enhanced visibility and security

With Syncrofy FT, you can track your file transfers in real time with a clear, end-to-end view across all systems allowing you to detect and troubleshoot issues faster than ever before. It continuously monitors for exceptions (e.g. a specific file didn't arrive by X time) to ensure critical files are received when you need them.

WITH SYNCROFY FILE TRANSFER, EXPERIENCE UP TO:

30%

Reduction of costly fines, fees, and penalties

50%

Less time spent by technical teams answering simple, repetitive questions

Better operational efficiency

Streamline your workflows and free up your team's time. That's because Syncrofy FT automates visibility, equips your specialists with powerful tools, makes it easier for customer support to deliver answers, and allows business users to collaborate in real-time with partners and customers.

Typically, only technical resources have access to tracking data, leaving business users dependent on IT for updates. Syncrofy FT changes the game by giving you direct access to file transfer tracking data—empowering you to set up exception events, view trends, and collaborate with business users and customers through an intuitive UI.

SYNCROFY FILE TRANSFER EMPOWERS YOU TO:

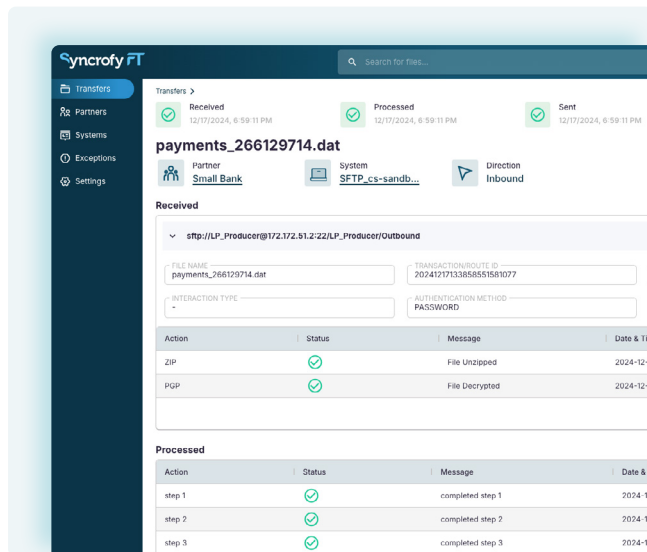

Create custom exception events

View trends in your data

Collaborate within your organization and customers

Regulatory compliance and performance monitoring

Syncrofy FT keeps you compliant and audit-ready with detailed audit trails that meet even the most stringent regulatory requirements. You can also track and report partner performance metrics to enhance collaboration and ensure everyone stays on the same page to keep accountability at the forefront.

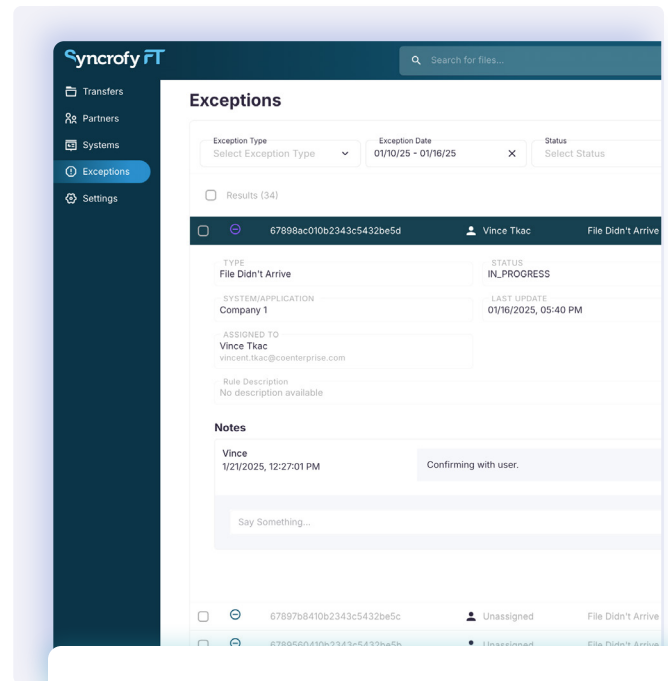

Notifications and SLA adherence

Stay on top of your commitments with instant alerts for missed files or failures to ensure you meet your SLAs, maintain reliability, and never miss a beat.

Built for businesses where every second counts

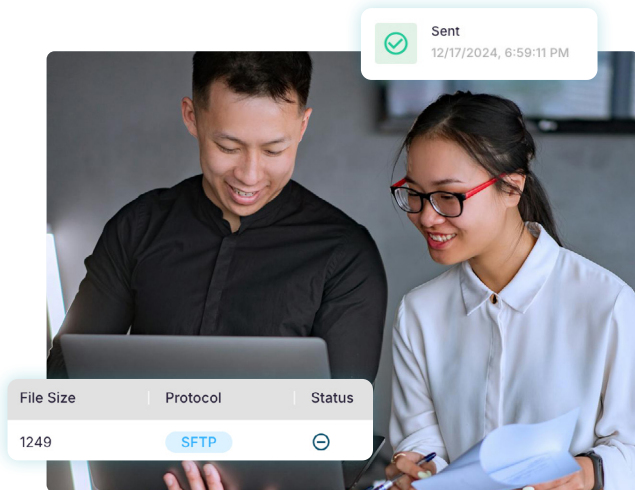

Syncrofy FT is designed for enterprises with complex file transfer needs. It's especially valuable for:

- Finance, logistics, and retail—where compliance, security, and efficiency are critical
- IT teams, managed file transfer specialists, customer support, and business users who need real-time insights and end-to-end visibility

Partner users benefit too

Syncrofy FT extends self-service to business partners. For example, if a file doesn't arrive from the bank, they no longer need to call/ email as Syncrofy FT provides the status to facilitate collaboration and efficiency.

Why just manage? Get more from every transfer

Experience the power of Syncrofy FT and discover how it can simplify your file transfer operations while giving you peace of mind.
