

# Track & improve supplier performance. Enable communication. Streamline chargeback creation.

According to the Center for Global Enterprise (CGE), companies who digitize their supply chains by collaborating intelligently with suppliers, investing in supplier development, and implementing digital technologies can reduce their supply chain costs by as much as 50%, reduce overall procurement costs by 20%, and increase their revenues by 10%.

Bottom line—if you haven't invested in an intuitive platform that can automate your supply chain management and streamline the chargeback process, then you're likely falling behind. Syncrofy's Supplier Compliance solution is here to help you level the playing field.

**Training, analyzing, and monitoring your suppliers will enhance the performance of your entire supply chain.**

## Here's how Syncrofy helps get you there...

### Dynamic Views to Monitor & Track Supplier Performance

Configurable views allow you to create scorecards and compare suppliers side-by-side so you can work with your strongest ones more often and collaborate with others to improve performance and avoid future chargebacks.

### Fast, Easy Chargeback Creation & Management

Easily handle the creation and management of your chargeback SLAs and penalties with your suppliers. Gain the ability to send chargebacks to suppliers for each violation, quickly verify disputed claims, and settle them collaboratively while remaining on good terms.

## Self-Service to Empower Your Internal Teams

Create a culture of compliance by getting your entire team on the same page via a single source of truth and user-friendly platform so you can work together to improve supplier performance and seamlessly verify and settle chargebacks.

## Rationalized Chargeback Rebuttal Platform

Give your suppliers the ability to dispute chargebacks by adding supporting documents or pictures or sending messages so that every claim can be tracked, analyzed, and stored for future

## Notifications to Identify & Proactively Manage Supply Chain Disruptions

Configure rules to identify the at-risk transactions and supplier violations causing disruptions so you can correct them and ensure your business doesn't miss a beat.

## Learn more about Syncrofy

Designed with non-technical users in mind, Syncrofy works with your existing B2B software and provides full supply chain visibility and actionable insights from day one—no need to configure, map, or develop a specialized data warehouse. It calculates fill rate and lead time for both orders and shipments and reconciles invoices against POs, shipment documentation, and receipts to identify quantity and price discrepancies.

Created by CoEnterprise. CoEnterprise is a transformative, problem-solving enterprise software and services company. Founded in 2010, we are recognized as a leader in the supply chain and business analytics space, delivering innovative solutions and services that empower companies to break down barriers to make faster, smarter decisions.

## Upgrade Your Compliance Program

### Stay on Top of Chargebacks

Syncrofy empowers you to streamline your chargeback creation process, easily verify disputed claims, and settle them quickly with your suppliers.

### Single Source of Truth

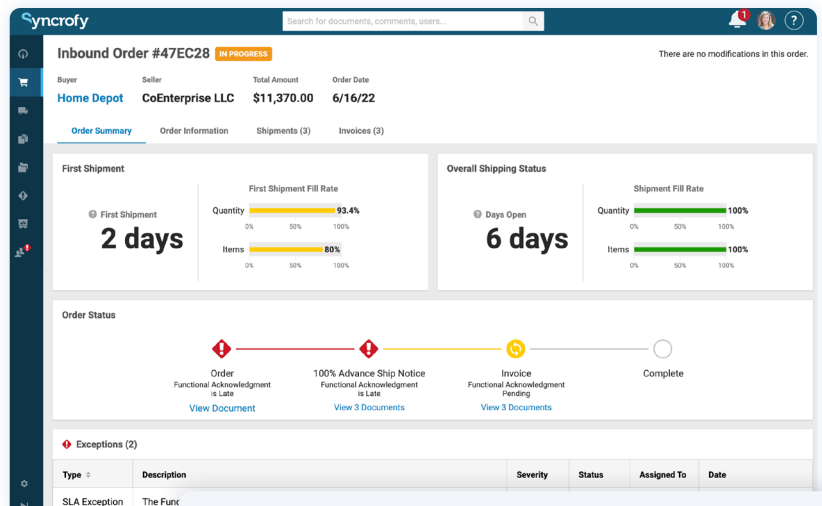

Boost collaboration with suppliers by using a uniform source of data to improve the quality and accuracy of your communication and transactions.

### Next Level Reporting & Dashboarding

Schedule, assign, and run automated compliance-related reports—and gain deep insights while answering important supplier questions with dynamic dashboards.

With the right platform and a little bit of guidance, you can integrate a modern compliance program and start tracking and improving your suppliers' performance—and we can help.
