

The Future of EDI Visibility is Here

Syncrofy allows you to maximize your B2B investment and gain greater visibility into your data. Its web-based solution provides self-service EDI insights to key business leaders without requiring any advanced technical knowledge, enabling users to analyze, interpret and act on information faster and more effectively.

Drive Collaboration & Resolve Issues Faster

Syncrofy enables you to set notification policies that alert you when your data requires your attention. Whether it's generated purchase orders or SLA exceptions, Syncrofy will keep you informed and in charge. Users can also invite business partners to access their own transactions via Syncrofy, making it simpler to quickly resolve issues together.

Syncrofy allows you to:

Create notifications to remain on top of your business operations

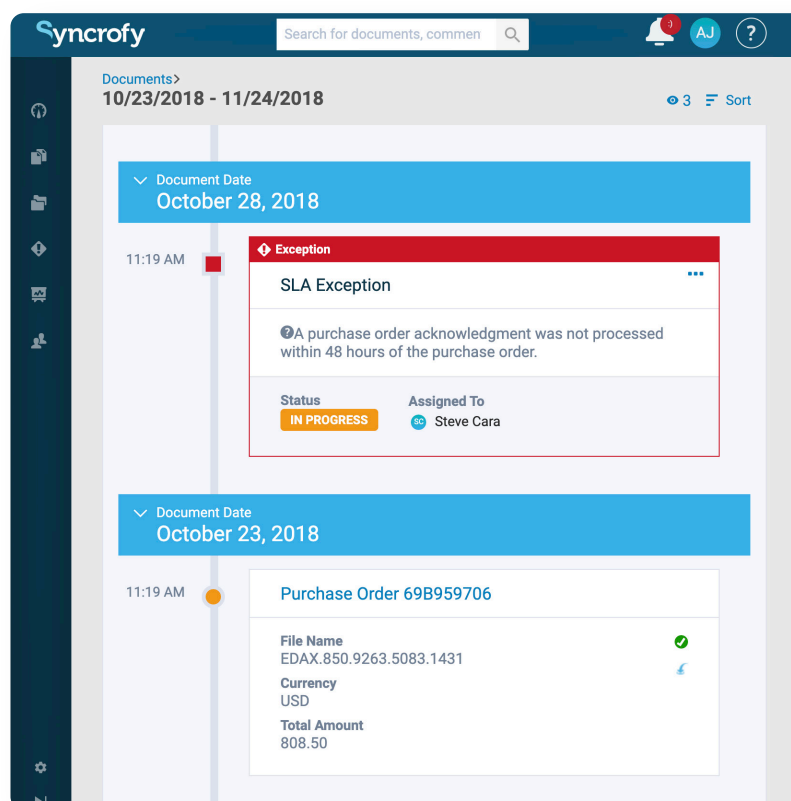

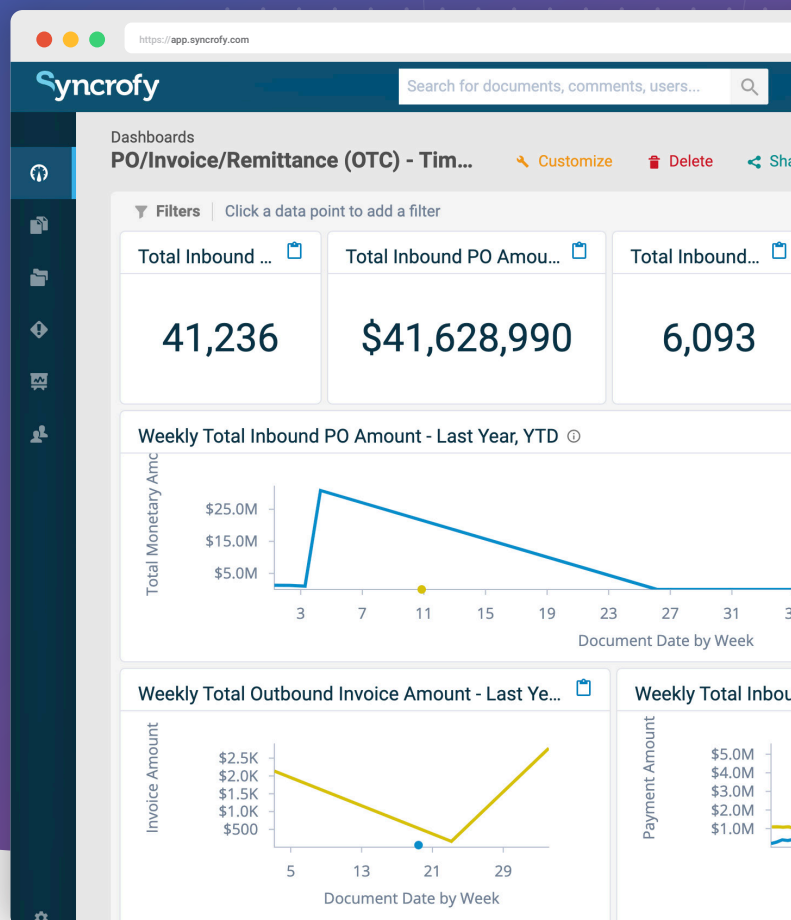

Set rules to proactively monitor for errors

Get contextual alerts on SLA exceptions and other issues

Grant partners Syncrofy access to share information

Increased Revenue, Reduced Operational Costs

With real-time access to data as well as customizable dashboards and reports, Syncrofy enables you to make better decisions and get insights

With Syncrofy, you can:

- Monitor business trends and processes to anticipate and prevent issues
- Reduce strain on IT and technical resources with self-service simplicity
- Expedite issue resolution and enable stronger strategic decision-making
- Create and download detailed reports of your entire EDI data environment

Empowered Real-time Business Insights

Designed with non-technical users in mind, Syncrofy enables you to see and analyze EDI data in a simplified way from anywhere and on any device, alleviating stress on IT resources and enabling your business to operate faster and smarter.

With Syncrofy, users can:

- Search and view their critical EDI data as easily comprehensible business documents
- Track and follow transactions through timeline views
- View dashboards for fast and easy information

Your Data, Secured in the Cloud

Syncrofy's full cloud architecture means there's no physical management of your information required. Simply send us your data and we'll take it from there. That means fewer upfront costs and less maintenance for you while having access to our best-in-class, 24/7 support.
